SUMMARY

Hi there! As a Django Backend Developer, I like transforming concepts into useful online programs. I know Python and Django well. Aside from coding, I love taking pictures. I even got the chance to work with a firm that specializes in Auto Part International as a photographer. Another one of my passions is traveling, which keeps me flexible and receptive. I bring a mix of technical know-how and creative thinking to everything I do. I'm excited to join a team that values innovation and continuous learning.

EDUCATION

BCS IT(Hons)

Sunway College / Kathmandu / March, 2022 - Present
Studying BSc Computer Science with Artificial Intelligence at Level Four provides a solid foundation in key computer science concepts and introductory AI. Level Five advances skills with practical modules in cyber security, software design, and machine learning. The third year incorporates a professional placement for hands-on industry experience. At Level Six, advanced topics include Deep Learning, computer vision, and natural language processing, culminating in an Individual Honors Project. This prepares graduates for roles in computing, artificial intelligence, and data science.

WORK EXPERIENCE

ACHIEVEMENTS

HultPrice winner

The Hult Prize challenges young people to solve the world's most pressing issues through social entrepreneurship. Every year, one team receives $1M USD in funding to make their idea a reality.

SKILLS

- Communication ●●●○○
- Project Management Skills ●●●○○
- Programming Skills - MATLAB, Arduino IDE, Java, VHDL, Python ●●●○○
- Winword , Excel , Powerpoint ●●●○○

LANGUAGE

- Nepali ●●●●○

- Maithali ●●●●○

Photographer (Intern)

Autopart International / Kalimati,Kathmandu / June, 2023 -
November, 2023

As a photographer at an Auto Parts International (API)
company, I contribute to showcasing superior products and
services through visually compelling images. Situated in the
city center, API's expansive 8000 sq. ft. warehouse holds a
vast inventory of high-quality vehicle spare parts, ensuring
competitive prices and exceptional customer service.

in Python, showcasing my commitment to continuous learning
and expertise in this versatile programming language.

✚ PORTFOLIO

E-commerce Site(Django)

I created an online food delivery service where you can register, log in, and add products to your cart. You can also increase the quantity of items you add and also you can share you detail with high security. I offer a GitHub account on which I have several of my own projects, with an emphasis on e-commerce sites.
